

Collaboration with the National Health System of the People's Republic of China

Local Health Authority “Tuscany Center” Years 2012 - 2019

Who we are:

Local Health Authority “Tuscany Center”
Public territorial health authority of the Tuscany Region with:

- over 1,500,000 assisted people;
- n. 13 hospitals and 221 territorial health and social services;
- more than 2,400 doctors, 5,500 nurses, 1,300 clerks;
- 3 billion euro of budget.

Our collaboration with the National Health System of the People's Republic of China:

- The first three-year Agreement on Health Human Resources Development in the Health Sector was signed on November 22, 2012 with the Beijing Weiren Weiyve International Medicine Research Center (**BWW**), Health Human Resources Development Center (**HHRDC**), Ministry of Health, PR China to:

1. promote training and academic cooperation in the health human resources development;
2. improve quality of health officials and professionals;
3. organize the program "School of Policy on Public Healthcare".

The Agreements were renewed, every three years, for the continuation of the project with HHRDC, also in collaboration with the **Careggi University Hospital** and **Meyer Children Hospital** (Florence).

More than **350** Chinese medical specialists, nurses, pharmacists participated in our exchange projects from 2012 to today, that involved our:

- 24 medical and surgical specializations;
- 28 operational units;
- 7 hospitals;
- 45 Italian medical tutors.

82% of Chinese professionals considered the training course "**very useful and interesting**".

- Over the years, further collaboration agreements have been stipulated at the level of the Chinese Provinces (for example **Gansu**) or the Cities (for example **Nanjing** Municipal Commission of Health and Family Planning) or individual Hospitals (for example Affiliated Hospital of **Qingdao** City).
